Dear Nura,

We would like to thank you and Baby Buggy for arranging a speech group for our clients. Stephanie Segal gave an excellent presentation. She was well prepared, knowledgeable, and easily engaged our clients.

Our clients found the group to be helpful and informative. Many in the group had children who have been diagnosed with speech delays. They found the group to be very empowering, giving them hands on techniques to promote speech and language development. They felt that it made them mindful of how they are helping their children to develop appropriate oral musculature to enable the production of speech.

As always, Baby Buggy's delivery of services and goods are always on target for what our families need, and enable us to provide enhanced services that we otherwise would not be able to provide.

Sincerely,

Patricia Hart, LCSW, MS Ed
Director Sonia Strumpf Clinic
The Child Center of New York
